

UBER Data Leadership Positions

We're looking for an experienced data science leader to lead and scale a team tackling some of the hardest data problems on one or more of our products.

Your team of data scientists will be partnering with Product and Engineering to drive actionable data insights and solutions from Uber's large datasets. We work on every aspect of the product — whether it's exploratory research to understand user behavior for riders and drivers, or running experiments to optimize untapped areas of growth, or building machine learning models to mitigate fraud on our platform. For the data science leader who wants to have a fundamental influence on the trajectory of a hyper-growth company, this is the opportunity of a lifetime.

UBER Positions:

- [Engineering Manager - Machine Learning Platform](#)
Location: San Francisco, CA
- [Data Science- Advanced Analytics Manager](#)
Location: San Francisco, CA
- [Data Science Manager - Marketplace Dynamics](#)
Location: San Francisco, CA
- [Data Science Manager - Map Services](#)
Location: San Francisco, CA
