

UBER Machine Learning Software/Data Engineering

We are looking for exceptional engineers to build the next-generation scalable machine learning platform for Uber. You will work closely with a stellar team of engineers and data scientists, and have a profound impact on our march towards Uber's vision of data-driven, real-time marketplace.

Uber Engineering is a high-performance culture marked by fearlessness and hyper-productivity. We're looking for team players who can work harder, faster, and smarter, while taking technical excellence to a whole new level.

UBER Positions:

- [**Algorithms Specialist - Machine Learning Platform**](#)
Location: Seattle, WA & San Francisco, CA
- [**Software Engineer- Machine Learning Platform**](#)
Location: Seattle, WA & San Francisco, CA
- [**Front-End Software Engineer- Machine Learning**](#)
Location: San Francisco
- [**Product Manager - Data Platform - Machine Learning**](#)
Location: San Francisco

PERKS:

- Employees are showered with Uber credits each month.
- The rare opportunity to change the world such that everyone around you is using the product you built. We're not just another social web app, we're moving real people and assets and reinventing transportation and logistics globally.
- Sharp, motivated co-workers in a fun office environment.

BENEFITS (U.S.)

- Generous equity in the fastest growing company ever
- 401(k) plan, gym reimbursement, nine paid company holidays.
- Full medical/dental/vision package to fit your needs.
